

Quality generators using low harmonic distortion alternators, mounted in a powder coated heavy duty frame, which provides an attractive low maintenance solution to your power needs. Powered by genuine Honda engines, the features include:

- Australian standard (AS2790) compliant
- Angle anti-vibration mounting system (models 70 - 160)
- 3 Phase
4/6.5kVA 2x15A 240V 1 x 10A 5 pin 415V
8/12.0kVA 2x15A 240V 1 x 20A 5 pin 415V
- Compact design roll frame
- Light weight without compromising strength
- Superior electrical performance and power characteristics THD (Total Harmonic Distortion) ≤ 3.5 for models 70 - 120

By using innovative alternator technology, Powerlite offers a superior power-to-weight ratio on their 70 - 120 models (up to 25kg weight saving over comparable products). Weight is an important factor with current WorkCover lifting regulations. Powerlite's complete alternator range is Australian Standard compliant to IP23 weather protection.

Options include:

- Wheels & handle roll frame
- Earth stake kit
- Centre lifting bar
- 18 or 50 litre extended operation fuel tank
- Dry battery fitted with transport acid pack (electric start models)
- WorkCover spec protection module (inc weatherproof outlets & earth leakage circuit breaker protection)
