## PTO Generators and Tractor Generators.

Powerlite PTO Generators / Tractor Generators are driven via the tractor PTO drive.

The 1500rpm alternator has a flange mounted reduction gear box with PTO drive shaft spline. These generators offer a reliable, simple and practical source of power when a tractor is available.

### Base Model Inclusions

- 20 to 105 kVA
- 2 bearing 1500rpm heavy duty brushless alternator
- Heavy duty PTO gear box
- Speed indication module
- PTO coupling guard
- PTO drive shaft

### Options include:

- Heavy duty 3 point linkage frame
- Weatherproof outlets
- Rated weatherproof circuit breaker
- Category 1 & 2 linkage pins
- Category 3 linkage pins
